Assignment 4C:: Creativity

Group Members: _____

Pretend this is your final project group. You are working on a just-in-time nutrition monitoring system. Your target population wants to:

- Receive reminders when they are in stores about healthy foods on sale
- Receive reminders at restaurants on healthy food items
- Take pictures of what they are eating
- View their progress – compare what they are eating to what is

recommended

Create pictures of what the system will look like to help the target population achieve their goals. Discuss if this is a futuristic system or a system that can be used right now. Describe how the system will work.
