

Last “Quiz”

Lazy Engineering

Investigate an engineering disaster that could have been avoided.

Be prepared to discuss/present in class:

1. What happened (implications of lazy engineering)
2. Why it happened (what caused the disaster)
3. What could have prevented it?
4. What would you have done?

Examples (in case of laziness)

Clayton Tunnel Disaster, Patriot Missile Failure, Ariane 5, Mars Pathfinder Mission, Therac 25
